Military Status: Completed

EDUCATION

- **9-Month Diploma in Software Development** 10/2019 – 06/2020
 - Information Technology Institute (ITI), Smart Village.
- **BSc of Engineering**, Faculty of Engineering Menofia University 09/2013 – 07/2017
 - Cumulative Grade: **Good 70%**.

PROFESSIONAL EXPERIENCE

- **Senior Frontend Developer**, ReactJS at **BitbangLLC** 06/2024 – present

Projects:

 1. **Social Media Application** 
 - Participated in developing features, code reviews and led performance-focused refactoring.
 - **Tech stack:** ReactJS, Apollo Client, Zustand, Zod, React Hook Form, shadcn/ui, Figma
- **Software Engineer**, ReactJS and SharePoint at **Vodafone Intelligent Solutions (_vois)** 03/2022 – 06/2024

Projects:

 1. **Report Generator System**
 - Developed an Admin Portal to create reports requiring monthly or quarterly fulfillment.
 - Implemented functionality allowing administrators to revise fulfilled reports and take actions such as approval, rejection, or deletion.
 - Built a User Portal to streamline the report fulfillment process.
 - Integrated a notification system triggered by approval, rejection, or deletion actions.
 - Contributed to approximately 80% of the total work.
 - **Tech stack:** ReactJS, SharePoint, PowerAutomate
 2. **Project Management System**
 - Created Meetings Overview page with categorized filtering.
 - Developed dynamic project planning with editable steps, task assignments, and attachments.
 - Enabled drag-and-drop reordering and user-defined customization.
 - **Tech stack:** ReactJS, SharePoint
 3. **SharePoint Framework UI Enhancements**
 - Added custom UI components to enhance native SharePoint capabilities.
 - Maintained and supported legacy front-end components.
 - **Tech stack:** ReactJS
 4. **Sites Migration**
 - Participated in the migration and revamp of two internal SharePoint sites.
 - **Tech stack:** PowerShell
 5. **Documents Generator**
 - Built dynamic form system to generate documents from user input.
 - Integrated PowerAutomate to convert HTML into downloadable Word docs.
 - Enabled users to download the generated documents.
 - **Tech stack:** ReactJS, SharePoint, PowerAutomate
- **Front End Developer**, ReactJS at **AIS-WORKS** 10/2021 – 02/2022

Projects:

 1. **Frontend Library**

- Spearheaded the development of a reusable frontend component library for internal projects.

- **Tech stack:** ReactJS

2. Sharjah's Municipalities Unified Portal [↗](#)

- Provided support and implemented requested changes for an internal government portal.

- Delivered new features and UI improvements based on client requirements.

- **Tech stack:** ReactJS, DevExpress

• Full Stack Developer, .NET and ReactJS at MedadSoftwareCairo

11/2020 – 10/2021

Projects:

1. Universities System [↗](#)

- Developed a QR-based limited sign-in system and an interactive quiz platform for student assessments.

- **Video Demo** [↗](#)

- **Tech stack:** ReactJS, DevExpress, .NET Core, Entity Framework, SQL

2. Company Website Revamping

- Contributed to ~40% of the redesigned company website with modern UI/UX improvements.

- **Tech stack:** ReactJS, DevExpress, .NET Core, Entity Framework, SQL

3. Accounting System Migration

- Migrated core sections of a desktop accounting app to a web-based solution.

- Developed ~20 web pages and contributed to 25% of the total system.

- **Tech stack:** ReactJS, DevExpress

4. Trips & Operations Tracking System

- Developed a visual tracking interface to map trip progress and highlight the current shipment step on a dynamic path.

- Built a financial operations dashboard to monitor and categorize accounting activities, debts, and associated notes.

- **Tech stack:** HTML, CSS, jQuery

5. Legacy Website Support

- Maintained and updated features on the company's legacy .NET Web Forms site.

- **Tech stack:** .NET Web Forms

• Full Stack Developer, Internship at Weelo Business

10/2020 – 11/2020

Projects:

1. Transportation Company Responsive Landing Page

- Built a responsive landing page to promote transportation services and optimize for mobile and desktop views.

- **Tech stack:** HTML, CSS, JavaScript, .NET Framework, MySQL

2. Service Map Application.

- Developed an interactive map to help users locate services and nearby restaurants.

- Integrated Google Maps JavaScript API for live geolocation and custom pins.

- **Tech stack:** HTML, CSS, JavaScript, Google Maps API

SKILLS

- **Core Frontend:** ReactJS, NextJS, Redux Toolkit, Zustand, TypeScript, Tailwind CSS, Sass, Dev-Express, shadcn/ui, Apollo Client, React Query, React Hook Form, Zod
- **Backend (Good knowledge):** C#, .NET Core, SharePoint, PowerAutomate, SQL
- **Tools & DevOps:** Git, TFS, GitHub, Bitbucket, Azure DevOps, Jira, Docker, System Design, Figma, Framer, PhotoShop

LANGUAGES

Arabic: Native • English: Very Good

PROJECTS

- **STREAM – Social Media Web App (Twitter Clone)** 
 - Built a full-featured social media platform with user authentication, tweet creation, editing, deletion, and interaction.
 - **Tech stack:** ReactJS, ReduxJS, Material UI, ASP.NET Framework
- **WASEET – E-Commerce Platform (Souq Clone)**
 - Developed an e-commerce platform with product listings, search functionality.
 - **Tech stack:** ASP.NET Core, jQuery
- **CLASH – Engineering Solutions Portal**
 - Created an engineering portal for ITI's final project, with interactive UI components.
 - **Tech stack:** HTML5, CSS3, jQuery, ASP.NET MVC, Photoshop
- **MyPortfolio** 
 - Developed a personal portfolio website to highlight my career path, showcase key projects, and provide contact methods.
 - **Tech stack:** Next.js, Framer Motion, Tailwind CSS, EmailJS
- **Alushibe – Landing Page** 
 - Contributed to a responsive and visually appealing landing page, enhancing UI and smooth navigation.
 - **Tech stack:** ReactJS
- **Multi-Step Chapters Selection Wizard App** 
 - Developed a multi-step form with genre selection, book choice, and chapter picking, with data persistence simulation.
 - **Tech stack:** ReactJS, Redux Toolkit, Material UI, MSW Fake-Server, gh-pages

AWARDS

- _vois Recognition – Contributed to company-wide digital transformation  07/2023
